USE & CARE

Do not machine wash seat. Wipe clean with a mild soap, taking care not to soak the material. No bleach.

Removable seat cushion is hand-washable. Drip dry. Do not use bleach.

To clean stroller frame, use only household soap and warm water. No bleach or detergent.

From time to time, check the stroller for loose screws, worn parts, or torn material or stitching. Replace or repair parts as needed. Use only Aprica replacement parts.

Excessive exposure to sunlight or heat could cause fading or warping of parts.

If your stroller becomes wet, open hood and dry thoroughly before storing.

If a wheel begins squeaking, use a light oil (e.g., WD-40, 3-in-1, or sewing machine oil). It is important to get the oil into the axle and wheel assembly.

When using your stroller at the beach, completely clean afterward to remove sand and salt from mechanisms and wheel assemblies.
