

Enigma-X

The [Enigma-X Shower Door or Enclosure](#) offers the epitome of style, innovation and quality. The sleek fully frameless design and high functioning performance deliver the look and feel of custom glass at an exceptional value. The impressive 3/8" thick tempered glass is factory treated with DreamLine exclusive ClearGlass™ protective coating for superior protection and easy maintenance. The substantial stainless steel hardware is the perfect marriage of urban style and effortless operation. Take your bathroom design to the limit with the high quality and sublime styling of the Enigma- X.

Enigma-X is also available as a [tub door](#).

Features:

- Advanced fully frameless glass design
- 3/8" (10mm) thick tempered clear glass
- Stainless steel hardware available in polished or brushed finish
- Effortless sliding operation with large wheel assemblies on a stainless steel track
- Anti-splash threshold to prevent water spills (requires minimum threshold depth of 2-3/4")
- DreamLine™ exclusive Clear Glass™ protective anti-limescale coating
- Reversible for right or left door opening
- Trim top bar up to 4" for width adjustment
- No adjustment for out-of-plumb walls
- Optional SlimLine™ shower base available
