

Mirage

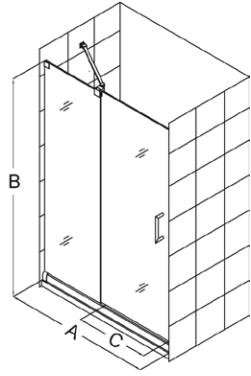

The [Mirage Shower Door](#) delivers a unique design and the look of custom glass at an unbelievable value. Most sliding shower doors require substantial aluminum framing, but the Mirage uses innovative hardware to provide the space-saving benefits of a sliding door without compromising the beauty of the completely frameless glass. Add a sophisticated and polished touch to any bathroom renovation with the clean lines of the Mirage Shower Door.

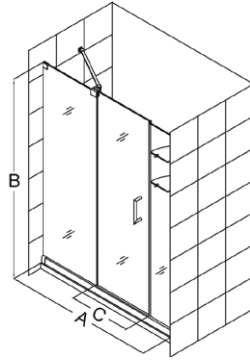

[Mirage](#) is also available as a [tub door](#).

Features:

- Unique fully frameless sliding shower door
- 3/8" (10mm) thick tempered clear glass
- Chrome or brushed nickel hardware finish
- One sliding panel with either one or two stationary panels
- Models that require a second stationary panel have two integrated glass shelves
- Reversible for right or left door opening
- Width may be trimmed up to 4"
- No adjustment for out-of-plumb walls
- Optional SlimLine™ shower base and backwalls available

Configuration 1
with one stationary panel

Configuration 2
